Natural Oak

**EXCELLENT PERFORMANCE
—AND VALUE!**

Somerset’s new Traditional Collection delivers the exceptional beauty of Appalachian oak flooring, in three of our most popular colors. All flooring in this collection features a subtle surface texture that helps minimize the look of wear, plus a 4-side eased edge, that visually defines the boards for added dimension.

The “look” is what you expect from real hardwood—beautiful grain pattern and true random lengths up to 6-1/2’!

Somerset manufactures this and all flooring in the USA, so you can have confidence in the quality—and in the company that takes pride in manufacturing.

S SOLID OAK
3/4" thick, 4-side eased edge
